

# Finlogon Software Personal Edition (PE)

A X E Z E  
**Access Control Products**

**FinLogon PE** is Microsoft Windows software that can accept fingerprint captured from the FS80 USB2.0 Fingerprint Scanner, extracts its physical characteristics (minutiae) and matches these with the pre-registered/stored data to control the Windows Logon on any PC.

Fingerprints can be used to logon to the computer and this has the following advantages over the traditional username and password logon:

- Human fingerprint is unique
- It cannot be stolen by others
- It will not be forgotten
- It is with user all the time

## FREE SOFTWARE AND FREE TOOLS

This is free software and is included in the retail package of FS80 USB2.0 Fingerprint Scanner. If you already have FS80, you can request your copy of FinLogon PE free and start to use it now.

FinLogon PE users can also make use of two free software tools from Axeze,

- One Touch Password Filler
- Fingerprint File Encryption

These come in the **FinLogon Add-on pack**, providing a more secure and convenient computing environment
