ACCESS IS EASY for more information visit www.axeze.com.au

HOW IT WORKS

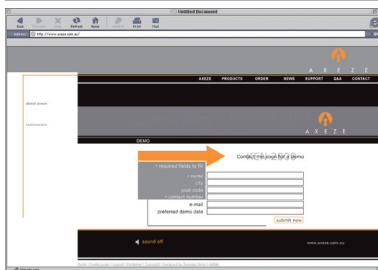

Present your tag to the Axeze system and push the door. Its that simple!

WHY USE AXEZE KEYLESS ENTRY?

- Convenience of proximity technology
- One tag can open hundreds of doors
- Its cost effective
- Control access
- Works with your existing alarm
- Increase security with an easy to use system
- Quickly add, remove or replace tags using the Master Programming Card (MPC)
- Database management software available for multiple doors and commercial sites
- DIY or professional installation
- A revolution in care, ideal for use in residences where people might have difficulty using traditional keys and door handles

Program new tags with your FREE MPC. Your new system is supplied with one keyring tag and the Master Programming Card.

CUSTOMERS SAY

"We installed Axeze to overcome a problem that we had with a master key system. If someone lost a master key then it would cost a lot of money to actually re-key the whole place."

Phil McDonough, Captain, Morphett Vale CFS

"The system has performed faultlessly since installation."

Paul Sherman, Director, Sherman's Hairdressing Academy
